

Instructions

Step 1: Remove Top **A** and Bottom **B** Endcaps, Plastic Pole Connector **C** and Aluminum Foot **D**.

Step 2: Release graphic from Top **E** and Bottom **F** Profiles by using a quarter to loosen the profile as shown in example **G**.

Step 3: Insert new graphics. Lock profiles back into place by pressing recently loosened piece inward, making sure entire length of profile is tightened evenly. Replace all previously removed parts.
