

SETUP INSTRUCTIONS

Step 1: Each pole has a number at each end which matches that end with the correct position on the base and top of the podium (A). Connect all the poles together with the matching number on the base by threading the pole onto the bolt (A). Thread the poles on slowly so they aren't cross threaded on the base.

Step 2: Take the top and place it on the poles and match up the corresponding numbers. Take the star bolt and thread through the top into the pole and spin it until tight. Do this with all the 4 star bolts until the top is securely fashioned. The finished frame should look like figure (C).

Step 3: Take the printed fabric graphic and pull it over the top of the frame. Take the cinch cord and pull it tight enough to keep the fabric on. Then drape the fabric down to the bottom of the frame (D). Hold the fabric tight to the frame and turn the frame over. Pull the fabric up over the frame and tighten the cinch cord. Adjust the graphic as needed, then put the table top on the frame. The Sophora podium is now complete (E).

PARTS

- (a) Frame poles (4)
- (b) Frame top (1)
- (c) Frame base (1)
- (d) Star bolt (4)
- (e) Podium table top (1)
- (f) Printed Fabric Graphic (1)
