

LED & HALOGEN INSTRUCTIONS

Step 1: Slide the scissor adaptor into the base of the light. (A)

Step 2: At the top of the display, position the scissor adaptor between the 2 cross bars. It will only fit one way with the top bar on the back. (B)

Step 3: Run the power cord behind the display. Plug the cord into the light first, then into an electrical socket. (C)

Step 4: Aim the lights to face the display graphic. (D)
